The Global Downstream Zone at the Global Petroleum Show is a key new feature area at this year’s event, capitalizing on the unprecedented opportunities presented by the Downstream, midstream and LNG segments of the oil and gas industry. Major projects are in the critical early stages and actively pursuing service providers and suppliers to meet their needs as they move forward with planning and construction.

Centered in the Global Downstream Zone will be the feature New Projects Platform where speakers (exhibitors included) can discuss key Alberta projects including:

- Inter Pipeline Integrated Propane Dehydrogenation and Polypropylene Facility
- CleanSEAS Demonstration Plant
- Hi-Q Pilot Plant
- Integrated Propane Dehydrogenation and Polypropylene Plant
- SinoCan Global Upgrader and Petrochemical Facility
- Value Creation Heartland Upgrader
- NOVA NGTL Expansion (Montney and Duvernay Basins)
- Bowden Re-refinery
- Empress Extraction Plant Fractionation and Terminal Facilities
- Duvernay Infrastructure Development and more!

GPS in Numbers

- 1,000+ Exhibiting Companies
- 50,000+ Attendees
- 21,000+ Represented Companies
- 460,000+ Gross sq ft
- 100+ Expert Speakers
- 65+ Technical Sessions
- 23 Technical Streams
- 10 NOCs
- 30 IOC
- 1,000+ Conference Delegates
- 10 Award Categories

Market Overview

- Alberta represents 48% of Canada’s industrial chemical manufacturing. Alberta petrochemical companies mainly use natural gas and natural gas liquids (NGLs) as raw material, known as feedstock, to produce petrochemicals.

- Petrochemical manufacturing is the largest manufacturing sector in Alberta – thanks to our large supply of natural gas and natural gas liquids. It directly employs more than 7,500 people and exports $8.2 billion worth of goods each year.

- Alberta is Canada’s largest refining and petrochemical cluster, characterized by modern, world-scale plants with access to abundant resource feedstock and efficient transportation systems able to deliver supply to consumers. There is significant potential for investors who are interested in taking advantage of Alberta’s vast energy resources and new government development programs to build new petrochemical plants in the province.
GLOBAL DOWNSTREAM ZONE

| 2019 RATES PER SQUARE FEET – UNDER 1000 | $48.25 CAD  |
| EXHIBITOR MEDIA LISTING                  | $250.00 CAD  |
| INSURANCE                                 | $159.00 CAD  |

WHAT IS INCLUDED WITH YOUR BOOTH SPACE

- Draped Display Booth
- Standard Grey Booth Carpet
- Basic Unlimited Material Handling up to 5000LBS per crate
- Crate Storage during the show
- Booth header with exhibitor name
- 24 Hour Roaming Security
- Daily Vacuum and Waste Basket Removal
- One (1) 1500-WATT Electric Outlet
- Unlimited Client Invitations
- Unlimited Exhibitor Booth Staff Passes
- Exhibitor Web Listing with Logo
- Company Profile on Online Directory and Mobile App
- Exhibitor Company on Official Live Floor Plan
- Company Logo in the Official Event Guide

ADDED VALUE

- Opportunity to speak in New Projects Platform centered in the Global Downstream Zone
- As a GPS 2019 Exhibitor you will also benefit from a 20% discount on the GPS Strategic & Technical Conference, Awards Gala, and other Networking Events

ENHANCED EXHIBITOR SPONSORSHIP OPPORTUNITIES

| SIGNAGE                                         | AWARDS GALA TABLE |
| CONFERECE SPONSORSHIP                           | ONSITE DIGITAL SCREEN DISPLAY ADS (CAN BE STILL OR VIDEO) |
